## Notices

### Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with manufacturer's instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**CAUTION:** Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

### FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. If the device is going to be operated in 5.15 ~ 5.25GHz frequency range, then it is restricted to an indoor environment only.

### RF Exposure warning

- The equipment complies with FCC RF exposure limits set forth for an uncontrolled environment.
- The equipment must be co-located or operated in conjunction with any other antenna or transmitter.

This is a Class B product, in a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

## Canadian Department of Communications Statement

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

This class B digital apparatus complies with Canadian ICES-003.

### NO DISASSEMBLY

**The warranty does not apply to the products that have been disassembled by users.**

## IC Radiation Exposure Statement for Canada

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. To maintain compliance with IC RF exposure compliance requirements, please avoid direct contact to the transmitting antenna during transmitting. End users must follow the specific operating instructions for satisfying RF exposure compliance.

Operation is subject to the following two conditions:

- This device may not cause interference.
- This device must accept any interference, including interference that may cause undesired operation of the device.

## Declaration of Conformity (R&TTE directive 1999/5/EC)

The following items were completed and are considered relevant and sufficient:

- Essential requirements as in [Article 3]
- Protection requirements for health and safety as in [Article 3.1a]
- Testing for electric safety according to [EN 60950]
- Protection requirements for electromagnetic compatibility in [Article 3.1b]
- Testing for electromagnetic compatibility in [EN 301 489-1] & [EN 301]
- Testing according to [489-3]
- Effective use of the radio spectrum as in [Article 3.2]
- Radio test suites according to [EN 300 440]

**NCC警語**

低功率電波輻射性電機管理辦法第十二條: 經型式認證合格之低功率射頻電機, 非經許可, 公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。 第十四條: 低功率射頻電機之使用不得影響飛航安全及干擾合法通信; 經發現現象時, 應立即停用, 並改善至無干擾時方得繼續使用。 前項合法通信, 指依電信法規定作業之無線電信。低功率射頻電機需忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

**REACH**

Complying with the REACH (Registration, Evaluation, Authorisation, and Restriction of Chemicals) regulatory framework, we published the chemical substances in our products at ASUS REACH website at <http://csr.asus.com/english/REACH.htm>.

**DO NOT** throw this product in municipal waste. This product has been designed to enable proper reuse of parts and recycling. This symbol of the crossed out wheeled bin indicates that the product (electrical and electronic equipment) should not be placed in municipal waste. Check local regulations for disposal of electronic products.

**DO NOT** throw the battery in municipal waste. This symbol of the crossed out wheeled bin indicates that the battery should not be placed in municipal waste.

**Class 1 Laser Product, Complies with FDA Radiation Performance standards, 21 CFR, Subchapter J.**

## Safety Certifications

- C-Tick Mark
- BSMI Certification

电子信息产品污染控制标示：图中之数字为产品之环保使用期限。仅指电子信息产品中含有的有毒有害物质或元素不致发生外泄或突变从而对环境造成污染或对人身、财产造成严重损害的期限。

有毒有害物质或元素的名称及含量说明标示：

部件名称	有害物质或元素					
	铅(Pb)	汞(Hg)	镉(Cd)	六价铬(Cr(VI))	多溴联苯(PBB)	多溴二苯醚(PBDE)
印刷电路板及其电子组件	×	○	○	○	○	○
外部信号连接头及线材	×	○	○	○	○	○

○：表示该有毒有害物质在该部件所有均质材料中的含量均在 SJ/T 11363-2006 标准规定的限量要求以下。

×：表示该有毒有害物质至少在该部件的某一均质材料中的含量超出 SJ/T 11363-2006 标准规定的限量要求，然该部件仍符合欧盟指令 2002/95/EC 的规范。

备注：此产品所标示之环保使用期限，系指在一般正常使用状况下。

Complies with 21 CFR 1040.10 and 1040.11 except for deviations pursuant to Laser Notice No. 50, dated June 24, 2007.

## Package Contents

Check your ASUS GX810 ROG Gaming Mouse package for the following items:

- **ASUS GX810 ROG Gaming Mouse**
- **Nano USB 2.4 GHz receiver**
- **3 x AAA batteries**
- **Quick Start Guide**
- **Support CD**

If any of the above items is damaged or missing, contact your retailer immediately.

⏻	Powered off
⬅️	Standard Mode
⚡	Gaming Mode

## Installing the battery

1. Locate the notch near the top end of the cover. Place your thumb over the notch, and then lift the cover upward to remove it.
2. Insert up to three batteries into the slots, taking note of the correct polarity.
3. Press the cover in the direction of the arrows to replace it.

- The bundled batteries are not chargeable.
- If you do not use the mouse for a long time, remove the batteries.
- Use new or similar-type batteries.
- Since your GX810 mouse can work with only one battery, you can adjust your mouse weight through adding or removing one or two batteries.
- When the mouse power is turned on with low batteries, the orange LED (scroll wheel) will flash for one minute and turn off immediately when you move your mouse or click a button.

## Connecting to PC

1. Take out the USB receiver from the USB compartment and then turn the power switch to Standard Mode for normal use or to Gaming Mode for better gaming performance.
2. Insert the USB receiver into an available USB port.

- You can store the USB receiver inside the mouse.
- To save power, turn off the power when you are not using the mouse.

## Customizing your ASUS GX810 ROG Gaming Mouse

The bundled support CD includes a specially designed program which allows you to customize your GX810 to avail all its features. Place the support CD into the optical drive and follow the onscreen instructions to install the program.

- If Autorun is NOT enabled in your computer, browse the contents of the support CD to locate the **setup.exe** file. Double-click it to install the program.
- Refer to the user manual in the support CD for detailed instructions on how to customize your mouse.

## Launching the program

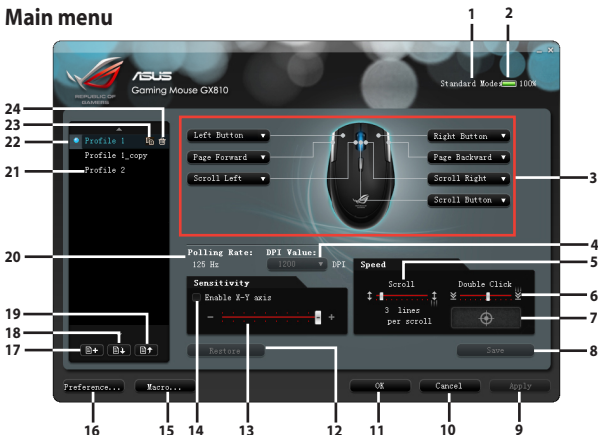

Do either of the following to launch the program:

- For Windows® XP / Windows® Vista / Windows® 7, click **Start > All Programs > ASUS Gaming Mouse GX810 > ASUS ROG Gaming Mouse GX810**.
- For Windows® 8, click the hidden **Start** button from the lower-left corner of Windows® desktop, and then click **ASUS ROG Gaming Mouse GX810** from the Start screen.

If the screen below appears, plug your ASUS GX810 Gaming Mouse into your computer's USB port and then click **OK** to relaunch the program.

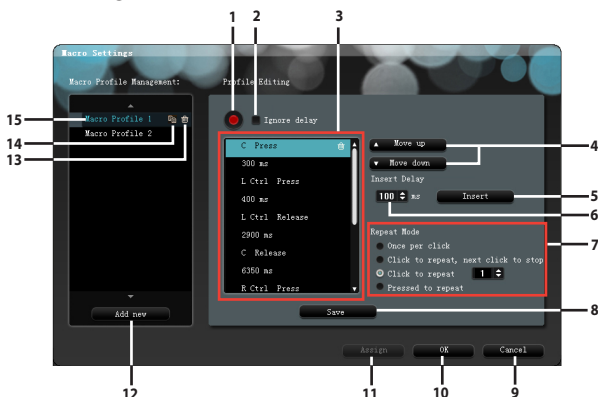

## Main menu

Items	Descriptions
1.	Displays the current mouse mode you are using.
2.	Displays the current battery level.
3.	Select a function for each button / action from the dropdown list. * Refer to the table on the next page for more details.
4.	Select a resolution from the dropdown list. * This item becomes configurable in Gaming Mode only.
5.	Drag the slider to adjust the scroll speed.
6.	Drag the slider to adjust the double-click speed.
7.	Double-click this icon to test the current double-click speed.
8.	Click to save the changes you have made to the selected profile.
9.	Click to apply the selected profile.
10.	Click to discard the changes you have made and close the screen.
11.	Click to save the changes you have made and close the screen.
12.	Click to restore the last settings you have made.
13.	Click to adjust the mouse sensitivity.
14.	Tick to enable or disable changing the mouse sensitivity through adjusting the X-axis and/or Y-axis values.
