

BP6260 Advanced Data-Asset Management

Exceptional/ Smart Performance · Slim Design

Powered by top-grade components and technologies, the ASUS Pro Series helps you easily multitask your office work. Models feature Intel® 2nd generation Core™ processors with powerful integrated graphics and support for up to 16GB of DDR3 memory to best handle your workload. With its slim design, it saves up to 60% space.

Support USB3.0 and SATA 6.0Gb/s

Experience ultra-fast data transfers at 4.8Gbps with USB 3.0. USB 3.0 transfers data 10X faster and is also backward compatible with USB 2.0 components. Intel® Q67 Chipset natively supports next-generation Serial ATA (SATA) storage interface, this motherboard delivers up to 6.0 Gb/s data transfer rates.

Intel® vPro™ technology

Intel® vPro™ technology working together with ASUS Pro series PC provides a framework that allows IT to be more proactive than ever, managing more PCs per technician than ever before. Optimized with optional 3rd generation Intel® Core® vPro™ processor family, BP6260 deliver integrated, remote manageability and cost saving that you need to keep your data secure and stay profitable.

Trusted Platform Module (TPM) Data Security*

TPM offers a protected and encapsulated microcontroller security chip used for safeguarding internal data structures against real world threats. This ensures that information like keys, passwords and digital certificates remains safe from external attacks, physical theft and other types of intrusion. *Optional

Ultra Durability

100% Solid State Capacitors for Ultra Reliability

ASUS Pro desktops are made with the world's best motherboards and solid state capacitors. High-quality components provide utmost durability, improved longevity and enhanced thermal performance.

EPU- Up to 40% Energy Saving

The exclusive ASUS EPU chip is the world's first PC energy saving controller, optimizing efficiency by detecting real time CPU loads and saving up to 40% on overall power consumption.

One Key Restore
