

How to use SDupdate to update image for TF701T

1. Download "WW_10_26_1_18_SDupdate" from ASUS support site.
http://www.asus.com/Tablets_Mobile/ASUS_Transformer_Pad_TF701T/#support
2. Unzip "WW_10_26_1_18_SDupdate" and put "T4_SDUPDATE.zip" in an empty MicroSD card.(must larger than 2 GB)
3. Turn off your TF701T
4. Insert the MicroSD card with T4_SDUPDATE file.
5. Long press "Volume down" button and "Power" button at the same time until below screen shows up. There is a line reads "Press key <Volume_up> in 5 sec to enter RCK"

6. Soon, press "Volume Up" button and you will see below screen.

7. After waiting a few minutes, you will see an ASUS logo with a status bar. It means update process starts and after about 5 minutes.

Finally, you should see the Google Welcome Page after your Eee Pad is automatically rebooted. Congratulations!
