13	Main power switch	Turns the main power on/off
14	Speaker	Allows you to listen to music, the navigation voice, and system warning

# Charging the Battery

You can charge the device using the bundled AC power adapter or from an car charger kit. Plug any of these cables to the mini-USB port on the right side of the device.

## NOTE:

- When the Main Power Switch is set to Off, the device can not be charged.
- Charge the battery before using the device.
- While charging, the power LED lights up in orange. When the battery is fully charged, the power LED turns to blue.
- Charging may take several hours.
- You can use the device while charging. However, the device takes much less time to be fully charged in sleep mode.

To check how much battery power remains:

1. From the main menu, tap **Settings**.
2. The **Sub-menu Settings** appears. Tap  to display more options.
3. Tap the battery icon, the battery screen appears and displays a battery icon indicating the battery power that remains.

# Install the Car Kit and Turn on the Device

To turn on the device, turn on the main power switch at the back of device, then press the Sleep Mode Button (  ) on the top of the device.

## Note:

- When the main power switch is set to Off, the device is not able to be charged.
- If you press the Sleep Mode button when the device is on, it enters into sleep mode.
- When the device is on, it takes longer time for the battery to be fully charged. When the device is in sleep mode, the battery can be fully charged quickly.

Sleep Mode Button

To install the car kit:

1. Attach the cradle to the gooseneck (1).
2. Attached the cupula to the windshield inside your car (3).
3. Press the lever (4) to secure the cupula on the windshield surface.

**Note:** Rise the lever (2) to release the cupula from the windshield.

4. Adjust the angle of the gooseneck and secure it by fastening **screwcap A**.
5. Adjust the angle of the cradle and secure it by fastening **screwcap B**.
6. Carefully place and slide the device into the cradle (5).

# Main Menu and Basic Settings

The main menu appears after you turn on the device. From the main menu, you can:

- Tap **Navigation** to enter the navigation system.
- Tap **Video Player** to play videos.
- Tap **Music Player** to play music.
- Tap **Photo** to view photos.
- Tap **Phone** to set and use bluetooth and phone features.
- Tap **Settings** to adjust the device settings (see figures below).

tap to display the screen on the right

figure 1

## The Settings Menu

- The **System Info** button allows you to view the system information.
- The **Language** button allows you to choose the language for the text.
- The **Backlight** button allows you to adjust the LCD brightness. It provides two adjustment modes, **Fix backlight brightness** and **Adjustment by environment brightness**.

(Note: R600 has Light Sensor function that allows you to adjust LCD brightness for either a lighter or a darker environment, see figure 1).

- The **Date & Time** button allows you to set the date and time for your device.
- The **Bluetooth** button allows you to connect R600 to a cellphone, see page 9 for more information.
- The **Volume** button allows you to adjust/mute the sound for the device and phone calls.
- The **Panel Adjustment** button allows you to calibrate the LCD screen.
- The **Battery** button allows you to view battery status, see page 3 for detailed information.

# Multi-Media Features

R600 allows you to playing music (mp3 and wma files), view photos (jpg. and bmp. files) and videos (wmv. files). Tap the respective icons from the main menu to launch the applications.

## Playing music

## Viewing photos

## Playing movies

the time remains

# Using Destinator Navigation

To use the Destinator to navigate your driving:

1. Tap **Navigation** from the main menu.
2. Tap **Address** button from the Destinations menu.
3. Tap **Mode** to select the navigation mode, e.g. **City-Street**.
4. Tap a city name and then tap **Next**.
5. Tap a street name and then tap **Next**.
6. Tap **Go** from the map screen.

The navigation system calculates the route and ready for a driving.

## Step 1

## Step 2

## Step 4

## Step 5

## Step 3

## Step 6

**Note:** The phone icon only appears when your R600 is connected to a cellphone.

Using **POI** (Points of Interest) to navigate:

1. Tap **Point of Interest** from the Destination Menu (figure 1).
2. Tap to choose a category and tap **Next** (figure 2).
3. Choose a place you want to go and tap **Next** (figure 3).
4. Tap **Go** from the map (figure 4).

Also, you can tap a place on the map to navigate:

1. Tap a place on your current map.
2. Tap **Go There** (see figure below) from the pop-up menu.
